RE: *Heat & Plumb the Country~Cuyahoga County*

ACCA and PHCC are non-profit associations of Heating & Cooling Contractors and Plumbing Contractors in the Greater Cleveland Area. We are working on a community service project that ACCA and PHCC members have done for the last several year. It is called *Heat & Plumb the Country*. There will be chapters from all over the nation participating in this project, each on their local level; here in Greater Cleveland - and all over Ohio - we will be providing our service on **Saturday, September 25, 2010.**

Together with assistance from Cuyahoga County Department Development & Cuyahoga County Department of Senior and Adult Services as well as Cleveland Dept. of Aging qualifying recipients, we will be helping local elderly, disabled & low-income homeowners who cannot afford to pay to have their heating and plumbing equipment serviced, repaired and/or replaced. (Threshold of income is 175% of poverty level established by the federal government - \$18,200 for a single individual). We will do water audits, maintenance and safety checks for 100-125 homes in the Greater Cleveland/Cuyahoga County area. All this is done with 100+ volunteers.

We are seeking donations of items to be given to these thoughtful people who are volunteering their services to make this effort happen - things like **gift certificates** for restaurants, spas, events, **tools**, and other items and services; anything to show our appreciation of their donating their valuable Saturday time and skills to this effort. Of course if you would like to make a cash donation to help with the costs of operating this event, the money would be put to good use.

If you have any questions or would like us to pick-up a donation, please contact the office or one of us.

Thank you for helping us help families in Cuyahoga County that are in need.

Sincerely,

*Don Van Horn*
